

Dear Lighthouse and Beacon guests,

We are reaching out to notify you that City will be using the Lighthouse Activity Center as a warming center through March 31, 2022. The warming center will serve up to 40 individuals per day and help address the impacts of cold weather on our community.

Senior Services being provided at Lighthouse will be temporarily moved to the Beacon Activity Center and continue to operate, which includes senior services and senior meals. **If you pick up meals from Lighthouse, you will now pick them up at Beacon.**

The City intends to have the providers return to Lighthouse to resume their current service provisions when the warming center is closed and Lighthouse has been appropriately cleaned and disinfected.

We appreciate your flexibility and partnership through these times.
